

## **Career Opportunities in Software Development**

Ascent Software is a premier supplier of world class software solutions with a development team based in Malta. The company currently employs over 50 employees. Most of our employees have been recruited as ICT, Mathematics or Engineering Graduates who have gradually moved towards more senior positions.

Ascent Software operates in various complex industries such as finance and telecommunication. This is why we are on the lookout for top level candidates. We promote a high quality multicultural working environment which leads us to work closely with many Universities in order to identify the best talents across Europe.

**We are looking for bright, capable, and highly motivated graduates in ICT (including computer science) who would like to work for a minimum of 2 years in Malta with Ascent Software.**

Apart from the obvious benefits of blue sky, blue sea, 360 days of sunshine and a competitive salary, our young graduates will be working within a fast-growing tech company and will be exposed to the very latest IT technologies. Excellent programming skills and a good level of written and spoken English are required.

If you are looking for a great career opportunity, then look no further and apply today!

**Early application is advised. Please send your CV and covering letter in English by email to [carreras@ascentsoftware.eu](mailto:carreras@ascentsoftware.eu)**
